

ABOUT

MBA (Finance) candidate at IILM University with a track record of growing through action — from market research at Masters Buddy and fund management at Quadron iSolutions to driving revenue strategy at The Great RockSport. Each experience has built a sharper understanding of how businesses move money, manage risk, and create value. NISM V-A certified with a strong grasp of Indian securities markets and a Lean Six Sigma Green Belt, I combine financial knowledge with operational discipline and analytical thinking. I am now looking to channel this diverse foundation into a finance role where I can contribute, grow, and deliver real business impact.
